Steamin' + Dreamin': The Grandmaster Cash Story - 10th Anniversary Screening (+ Stevie G)

Back in Twenty Nattin Nine, one documentary changed the face of Cork hip-hop. Controversial, shocking and hilarious, "Steamin' + Dreamin': The Grandmaster Cash Story" quickly became an audience favourite with its loveable characters, quotable lines and savage tunes. Don't miss your chance to see this cult classic - back on the big screen for the first time in 10 years! Also on the night will be a brand new short film, a special video message from Dr. Feekinstein, a Q+A with the filmmakers, and a DJ set from Cork legend Stevie G.

Wednesday Oct 9th
Blacknight @ Dali / 7:30pm / **€8**

Beatlebums: The White Album

The Beatles 1968 'White Album' has a unique place in the history of popular music, having emerged during a tumult of social change. Its songs are incredibly diverse in style, and though some are household favourites others are highly experimental, political and still challenging. To mark the 51st anniversary of its launch, Cork's own **Beatlebums** will perform the entire album from 'Back in the USSR' to 'Goodnight'. And you can sing along! A splendid time is guaranteed for all!

Thursday Oct 10th
The Guesthouse / 7pm / **€6**

Angel: An Evening Without Scott Walker (1943-2019)

Scott Walker's musical journey took many unusual turns. In the 1960's he was the poster boy of the Walker Brothers, but his ambitious solo work took him far from the mainstream rock scene. His last decades produced his most stark and artistically uncompromising material. This even, in partnership with **The Guesthouse**, presents responses to Walker's music by renowned Irish sound artists.

Friday Oct 11th

Myles Manley + Shithätt

Shithätt are the hättest garage/noise band to ever come out of Co Mayo. Live, they are simply blistering. And, after two years of trying we have managed to book them on their farewell tour so this is definitely not a gig to miss.

As if Shithätt was not enough, they are paired this evening with the magnificent **Myles Manley** and his long-term collaborators Chris Barry and Solamh Kelly. *The Thin Air* describes Myles as a 'completely one of a kind artist with a brilliant and unconventional mind'. You won't hear pop as intelligent as this anywhere in Ireland.
